DATE MAILED: 12/29/2009

APPLICATION NO.	FILING DATE	FIRST NAMED INVENTOR	ATTORNEY DOCKET NO.	CONFIRMATION NO.
10/581,117	05/30/2006	Jozef Pieter Van Gassel	NL 031406	5189

TITLE OF INVENTION: POWER SAVING METHOD AND SYSTEM

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$300	\$0	\$1810	03/29/2010

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. **PROSECUTION ON THE MERITS IS CLOSED.** THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN **THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE** OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. **THIS STATUTORY PERIOD CANNOT BE EXTENDED.** SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: Mail **Mail Stop ISSUE FEE**
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450
 or Fax **(571)-273-2885**

INSTRUCTIONS: This form should be used for transmitting the ISSUE FEE and PUBLICATION FEE (if required). Blocks 1 through 5 should be completed where appropriate. All further correspondence including the Patent, advance orders and notification of maintenance fees will be mailed to the current correspondence address as indicated unless corrected below or directed otherwise in Block 1, by (a) specifying a new correspondence address; and/or (b) indicating a separate "FEE ADDRESS" for maintenance fee notifications.

CURRENT CORRESPONDENCE ADDRESS (Note: Use Block 1 for any change of address)

Note: A certificate of mailing can only be used for domestic mailings of the Fee(s) Transmittal. This certificate cannot be used for any other accompanying papers. Each additional paper, such as an assignment or formal drawing, must have its own certificate of mailing or transmission.

24737 7590 12/29/2009

PHILIPS INTELLECTUAL PROPERTY & STANDARDS
P.O. BOX 3001

EXAMINER	ART UNIT	CLASS-SUBCLASS
SNYDER, STEVEN G	2184	713-324000

1. Change of correspondence address or indication of "Fee Address" (37 CFR 1.363).

☐ Change of correspondence address (or Change of Correspondence Address form PTO/SB/122) attached.

☐ "Fee Address" indication (or "Fee Address" Indication form PTO/SB/47; Rev 03-02 or more recent) attached. Use of a **Customer Number is required.**

2. For printing on the patent front page, list

(1) the names of up to 3 registered patent attorneys or agents OR, alternatively,

1

(2) the name of a single firm (having as a member a registered attorney or agent) and the names of up to 2 registered patent attorneys or agents. If no name is listed, no name will be printed.

2

3

3. ASSIGNEE NAME AND RESIDENCE DATA TO BE PRINTED ON THE PATENT (print or type)

PLEASE NOTE: Unless an assignee is identified below, no assignee data will appear on the patent. If an assignee is identified below, the document has been filed for recordation as set forth in 37 CFR 3.11. Completion of this form is NOT a substitute for filing an assignment.

(A) NAME OF ASSIGNEE

(B) RESIDENCE: (CITY and STATE OR COUNTRY)

Please check the appropriate assignee category or categories (will not be printed on the patent): ☐ Individual ☐ Corporation or other private group entity ☐ Government

4a. The following fee(s) are submitted:

- ☐ Issue Fee
☐ Publication Fee (No small entity discount permitted)
☐ Advance Order - # of Copies _____

4b. Payment of Fee(s): (Please first reapply any previously paid issue fee shown above)

- ☐ A check is enclosed.
☐ Payment by credit card. Form PTO-2038 is attached.
☐ The Director is hereby authorized to charge the required fee(s), any deficiency, or credit any overpayment, to Deposit Account Number _____ (enclose an extra copy of this form).

5. Change in Entity Status (from status indicated above)

- ☐ a. Applicant claims SMALL ENTITY status. See 37 CFR 1.27. ☐ b. Applicant is no longer claiming SMALL ENTITY status. See 37 CFR 1.27(g)(2).

NOTE: The Issue Fee and Publication Fee (if required) will not be accepted from anyone other than the applicant; a registered attorney or agent; or the assignee or other party in interest as shown by the records of the United States Patent and Trademark Office.

Authorized Signature _____ Date _____
 Typed or printed name _____ Registration No. _____

This collection of information is required by 37 CFR 1.311. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, Virginia 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, Virginia 22313-1450.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 142 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 142 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

Notice of Allowability

Application No.

10/581,117

Examiner

STEVEN G. SNYDER

Applicant(s)

VAN GASSEL ET AL.

Art Unit

2184

- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to the response filed on October 13, 2009.
2. ☒ The allowed claim(s) is/are 4-13 and 15-20.
3. ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some* c) ☐ None of the:
1. ☒ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.

THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

4. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
- (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
- 1) ☐ hereto or 2) ☐ to Paper No./Mail Date _____.
- (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).
6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

Attachment(s)

1. ☒ Notice of References Cited (PTO-892)
2. ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
3. ☐ Information Disclosure Statements (PTO/SB/08), Paper No./Mail Date _____
4. ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material
5. ☐ Notice of Informal Patent Application
6. ☐ Interview Summary (PTO-413), Paper No./Mail Date _____
7. ☐ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____.

Supervisory Patent Examiner, Art Unit 2184

DETAILED ACTION

Allowable Subject Matter

1. Claims 4 – 13 and 15 – 20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "determining an optimum buffer size for which the power consumption of said subsystem is a minimum for a given streaming bit-rate to/from said buffer memory; and adjusting the buffer size of said buffer memory to said optimum buffer size, such that the power consumption of said subsystem is minimal" and "determining a hard disk drive data rate of the hard disk drive; determining the stream bit-rate to/from the buffer memory; and determining the optimum buffer size having the lowest power consumption at the determined stream bit-rate, and wherein said optimum buffer size determination step comprises calculating optimum buffer size from a formula, looking up optimum buffer size in a look-up table, or measuring the minimum power consumption of the subsystem in a feedback loop controlling buffer size" along with other recited limitations of independent claim 4.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "adjusting the buffer size of said buffer memory to said optimum buffer size, such that the power consumption of said subsystem is minimal, wherein the optimum buffer size is determined by the ratio of the stream bit rate and the disk bit rate giving the duty cycle of the hard disk drive for

calculating/estimating the hard disk drive power consumption, which subsequently is used to determine the optimal buffer size" along with other recited limitations of independent claim 5.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "determining an optimum buffer size for which the power consumption of said subsystem is a minimum for a given streaming bit-rate to/from said buffer memory; and adjusting the buffer size of said buffer memory to said optimum buffer size, such that the power consumption of said subsystem is minimal, wherein said method further comprises the step of: powering up extra memory banks and/or memory integrated circuits (ICs) when a new stream is admitted" along with other recited limitations of independent claim 6.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "determining an optimum buffer size for which the power consumption of said subsystem is a minimum for a given streaming bit-rate to/from said buffer memory; and adjusting the buffer size of said buffer memory to said optimum buffer size, such that the power consumption of said subsystem is minimal, wherein a powering down of a memory bank or integrated circuit (IC) is either delayed or the buffered data of that memory bank or IC is moved to another memory bank that will remain powered on after which the first bank is shut down immediately, when a

stream is stopped and removed" along with other recited limitations of independent claim 7.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "determining an optimum buffer size for which the power consumption of said subsystem is a minimum for a given streaming bit-rate to/from said buffer memory; and adjusting the buffer size of said buffer memory to said optimum buffer size, such that the power consumption of said subsystem is minimal, wherein in case of multiple simultaneous streams, the sum of the bit-rates of all streams is determined" along with other recited limitations of independent claim 8.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "wherein the processing unit determines the optimum buffer size by the ratio of the stream bit rate and the disk bit rate giving the duty cycle of the hard disk drive for calculating/estimating the hard disk drive power consumption, which the processing unit subsequently uses to determine the optimal buffer size" along with other recited limitations of independent claim 9.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "wherein the first code segment causes the computer to determine the optimum buffer size by the ratio of the stream bit rate and the disk bit rate giving the duty cycle of the hard disk drive for calculating/estimating the

hard disk drive power consumption, which the computer subsequently uses to determine the optimal buffer size" along with other recited limitations of independent claim 13.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "wherein the storage device is a hard disk drive and the step of determining an optimum buffer size comprises determining a hard disk drive data rate, determining the stream bit-rate to/from the buffer memory, and determining the optimum buffer size having the lowest power consumption at the determined stream bit-rate, and wherein the optimum buffer size is determined by the ratio of the stream bit rate and the disk bit rate giving the duty cycle of the hard disk drive for calculating/estimating the hard disk drive power consumption, which subsequently is used to determine the optimal buffer size" along with other recited limitations of independent claim 15.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "wherein the optimum buffer size is determined by the ratio of the stream bit rate and the disk bit rate giving the duty cycle of the hard disk drive for calculating/estimating the hard disk drive power consumption, which subsequently is used to determine the optimal buffer size" along with other recited limitations of independent claim 16.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "determining a hard disk drive data rate of the hard disk drive; determining the stream bit-rate to/from the buffer memory; and determining the optimum buffer size having the lowest power consumption at the determined stream bit-rate, and wherein the optimum buffer size is determined by the ratio of the stream bit rate and the disk bit rate giving the duty cycle of the hard disk drive for calculating/estimating the hard disk drive power consumption, which subsequently is used to determine the optimal buffer size" along with other recited limitations of independent claim 17.

The prior art taken alone and/or in combination with each other fails to teach and/or fairly suggest the limitations of "determining an optimum buffer size for which the power consumption of said subsystem is a minimum for a given streaming bit-rate to/from said buffer memory; and adjusting the buffer size of said buffer memory to said optimum buffer size, such that the power consumption of said subsystem is minimal and wherein a powering down of a memory bank or IC is either delayed or the buffered data of that memory bank or IC is moved to another memory bank that will remain powered on, after which the first bank is shut down immediately when a stream is stopped and removed" along with other recited limitations of independent claim 19.

Newly cited U.S. **7,461,393** (Kishitaka) discloses detecting incoming bit rates and determining an optimum buffer size. However, as stated above, Kishitaka fails to teach

and/or fairly suggest the buffer being part of a subsystem including a mass storage device, such as a hard drive, wherein the hard drive's data rate is also taken into consideration. Kishitaka further fails to teach and/or fairly suggest powering up or powering down memory banks in the buffer memory.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Patent **7,461,393** discloses detecting incoming bit rates and determining an optimum buffer size.

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to STEVEN G. SNYDER whose telephone number is (571)270-1971. The examiner can normally be reached on Mon. - Thurs. 9:30 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Henry Tsai can be reached on (571) 272-4176. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
